Whose products we offer

We can introduce you to a limited group of carefully selected credit providers who may be able to offer you finance for your purchase. Our role as a credit broker is to determine which lender on our panel to introduce you to. Each credit provider may have different interest rates and charges.

We are only able to offer finance products from these providers, which may be suitable for you, and we will explain the key features of your chosen product to you (or your introducing supplier will). As a credit broker with a limited panel of preferred credit providers from whom we receive commission, Motor Finance Northern Ireland is not impartial and is free to prefer its own interests.

In line with our regulatory requirements, we will try to get you the finance arrangement you were quoted from our limited panel of lenders or a suitable alternative offer and the commission we receive will never be our primary decision of which lender to place you with.

However, we may be influenced by the amount of commission we earn, this means you should not think we are giving financial advice or a recommendation to you. Depending on your circumstances you may be able to negotiate a better or different finance arrangement if you shop around.

The introducing supplier or partner may have arrangements with other brokers or lenders and therefore you should consider the information provided to you by them.

We are NOT independent financial advisors. We will provide details of the products available from the lenders that we work with, but no advice or recommendation will be made. You must decide whether the finance product is right for you.

Our finance partners

Details on our current list of finance lenders and details of how they use information can be found at the following link: [Privacy Policy](#)

Commission Disclosure & Interest rates

Rates will be either fixed or based on your credit score. Fixed rates are based on the lender, by a parameter or a number of parameters (for example, the advance borrowed, the age of asset or the manufacturer of the asset). Fixed rates are determined by our contractual agreement with the introducing supplier and the supplier cannot change this rate. Credit score-based rates are pre-set and linked to your individual credit rating. Typically, the higher your credit score, the lower the APR you will receive from a credit provider.

We will receive payment from the credit provider for introducing you to them and we will also pay an amount of that commission to the introducing supplier or partner. The amount both parties receive could vary by credit provider, which may be a higher amount in relation to certain products compared with other products available. The lenders we work with could pay commission at different rates. However, the amount of commission that we receive from a lender is predetermined and cannot be changed for your agreement.

We run a number of different commission models depending on the arrangements that we have agreed with the lender and in turn agreed with our supplying introducers. The commission received is either a fixed fee or a percentage of the amount you borrow, which means the payment we receive may vary depending on the amount you borrow and the term the loan is borrowed over. This may also mean that the more you borrow the more the introducer is paid.

As described above the amount of commission payable is predetermined. We will confirm the likely amount of commission both we and the introducing supplier or partner will receive for arranging your finance agreement in good time, before you sign the finance agreement.

We do not charge you a fee for our services, but the commission we receive from the lender and pay to the introducer impacts the amount you pay.
